

Water Supply Line Construction Beginning August 26

As early as August 26, crews will begin site preparation followed by construction activity near Hyland Village.

This project will install a new raw water line to carry untreated water to the new water treatment facility on Westminster Boulevard.

Work is anticipated to last through 2026 and into 2027.

Every effort is being made to minimize impacts and inconveniences. Thank you for your patience and understanding as we complete this effort as quickly and safely as possible.
